Introduction

The main character is a high school student who has recently transferred to Brooklands Academy. Starting afresh in a new school, he will endeavour to become the smartest and most popular student at school.

Characters

	Jack loves PE and is captain of the school athletics team. Jack is gifted at sports and trains in the yard every day after school.
	Emily enjoys food tech and looks forward to seeing what food the player makes.
	Alexander is a stereotypical geek. He can often be found in the science lab after school.

Nathan doesn't put effort into anything he does. That is apart from DT, where he is surprisingly gifted. He seems to have an unlimited supply of energy drinks.

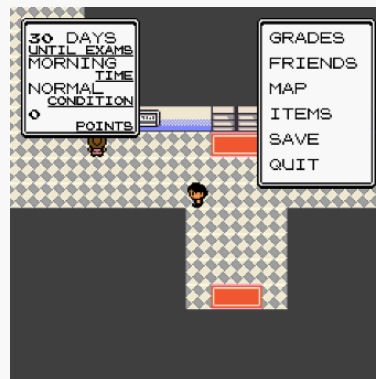

Frankie is a nice but dim girl. However, she never gives up in trying to better her grades and is found in the IT lab after school.
